Personal Property Tax

Taxes without the stress

ECS can help keep your business compliant, reduce your audit risk and exposure, reduce your overhead costs, and most importantly, eliminate the burden and stress of managing personal property tax compliance so that your staff can focus on other mission critical business activities.

Who We Are

ECS Financial Services is a full-service accounting firm that has been helping businesses like yours succeed since 1962. Our tax professionals have the expertise and resources to help with all of your personal property tax needs. We are committed to delivering exceptional customer service at every step, from the preparation and filing of returns, to proper review of assessments and allocation of tax liabilities, to representation before state government officials.

Put the Tax Compliance Burden on Us

In the equipment leasing industry, the filing and paying of property tax falls on the lessor of the property, with the financial burden passed back to the lessee. The tax, imposed on intangible

personal property used for business, is assessed based upon how the asset is identified by the taxing authority. Taxing authorities commonly misclassify assets, which could result in excess tax being assessed.

Personal Property Tax Compliance

Personal property tax compliance is not your core business, yet it can quickly result in exorbitant time and expense if not managed properly. ECS has worked with thousands of taxing jurisdictions to understand the complex requirements of each. Our tax professionals are here to help, making sure that your company is in full compliance and is being taxed at the proper rates.

Our Advantage

Outsourcing tax compliance services provides the ability to call upon seasoned professionals without the cost of maintaining those professionals on a full-time basis. ECS can help keep your business compliant, reduce your audit risk and exposure, reduce your overhead costs, and most importantly, eliminate the burden and stress of managing personal property tax compliance so that your staff can focus on other mission critical business activities.

Personal Property Tax

- Financial Value
 - Reduced overhead
 - Fewer penalties
 - Predictable cost
 - Ability to focus in-house resources on other mission critical activities
- Business Value
