Financial Statement Preparation

High quality assurance services

We pride ourselves on offering high-quality assurance services, including audit, review, and compilation, with professionally prepared full-disclosure financial statements.

Who We Are

ECS Financial Services is a full-service accounting firm that has been helping businesses like yours succeed since 1962. We pride ourselves on offering high-quality assurance services, including audit, review, and compilation, with professionally prepared full-disclosure financial statements. Additionally, new regulations now allow us to offer standalone financial statement preparation services that are not tied to one of our assurance service packages.

Professional Quality Service

At ECS Financial Services, we take pride in the professional quality of the financial statements we issue. We have successfully passed each annual peer review conducted on our firm since the program's inception in 1982. Peer reviews focus on all aspects of the assurance service process

from staff training and continuing education, workpaper and review procedures, to compliance with appropriate standards when preparing financial statements and related disclosures.

Attestation & Financial Statement Preparation

- Serving all types of businesses, ranging from manufacturing to service to equipment financing.
- Offering personalized attention and advice from highly qualified professionals.
- Utilizing time-tested, cost-efficient procedures developed over the past 50 years.
- Maintaining effective quality control to ensure services provided are of the highest quality.
- Offering flexibility to tailor our attestation services to meet the needs of your company.

Assurance Services

All assurance services are performed in compliance with the applicable American Institute of CPAs' (AICPA) standards, utilizing time-tested procedures and controls. For every level of assurance service, we go the extra step by conducting an independent technical review of all year-end financial statements we prepare, so that we are certain our financial statements are of the highest quality.
